The following is an Examiner's Statement of Reasons for Allowance:

The instant application is a continuation of US Patent Application 10/243,537 which has been abandoned. The examiner has done complete search and found no prior art, alone or in combination, teaches or fairly suggests, "a control circuit for controlling operation of first and second SCSI bus interfaces that permits a succession of SCSI bus phases initiated by an initiator digital computing device that is connected to either of the SCSI buses to be concluded by a target digital computing device connected to other SCSI bus, the succession of SCSI bus phases ending upon occurrence of a bus free phase of the SCSI buses" (claim 33); "control circuit, simultaneously connected both to a shared bus interface circuit and to a sharing bus interface circuit, the control circuit responding to a plurality of signals on the shared and sharing distributed arbitration digital data buses for controlling both of the bus interface circuits during an exchange of information between devices connected to the composite distributed arbitration digital data bus" (claim 36) and "control circuit, simultaneously coupled both to a first SCSI bus interface circuit and to a second SCSI bus interface circuit, for controlling the first and second SCSI bus interface circuits during a sequence of SCSI bus phases that commences when an initiator digital computing device, during a BUS FREE phase of the SCSI bus protocol, initiates an ARBITRATION phase of the SCSI protocol; during the sequence of SCSI bus phases commenced by the initiator digital computing device the control circuit controlling the signal present on at least one signal line of either the first or second SCSI buses responsive to a signal present on a different signal line of either the first or second SCSI buses; and the sequence of SCSI bus phases ending whenever a BUS FREE phase of the SCSI bus protocol occurs" (claim 41) in combination with other claimed limitations in respective claims. Dependent claims 34, 35, 37-40, 42 and 43 further limit the subject matter of the

respective parent claims. If applicants are aware of any better prior art than those of record, they must bring the prior art to the attention of the examiner.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gopal C. Ray whose telephone number is (571) 272-3631. The examiner can normally be reached on Monday - Friday from 8:00 AM - 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Rinehart, can be reached on (571) 272-3632. The fax phone number for this Group is (703) 872-9306.

Communications via Internet e-mail regarding this application, other than those under 35 U.S.C. 132 or which otherwise require a signature, may be used by the applicant and should be addressed to [**mark.rinehart@uspto.gov**].

All Internet e-mail communications will be made of record in the application file. PTO employees do not engage in Internet communications where there exists a possibility that sensitive information could be identified or exchanged unless the record includes a properly signed express waiver of the confidentiality requirements of 35 U.S.C. 122. This is more clearly set forth in the Interim Internet Usage Policy published in the Official Gazette of the Patent and Trademark on February 25, 1997 at 1195 OG 89.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to TC central telephone number is (571) 272-2100.

Art Unit: 2111

Moreover, information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

Lastly, paper copies of cited U.S. Patents and Patent Application Publications ceased to be mailed to applicants with office actions as of June 2004. Paper copies of Foreign Patents and Non-Patent Literature will continue to be included with office actions. These cited U.S. Patents and Patent Application Publications are available for download via Office's PAIR. As an alternate source, all U.S. Patents and Patent Application Publications are available on the USPTO web site (www.uspto.gov), from the office of Public Records and from commercial sources. Applicants are referred to the Electronic Business Center (EBC) at <http://www.uspto.gov/ebc/index.html> or 1-866-217-9197 for information on this policy. Requests to restart a period for response due to a missing U.S. Patent or Patent Application Publications will not be granted.
